PROFESSIONAL SUMMARY

Full-Stack Web Development intern candidate with hands-on experience designing responsive front-end interfaces in **React, Next.js, and Tailwind CSS**, and building back-end services and REST APIs with **Node.js and Express.js**. Comfortable designing and querying both relational and non-relational databases — **MySQL, PostgreSQL, and MongoDB** — and debugging full-stack issues using Git and Postman. Strong fundamentals in DSA, OOP, and DBMS, with a track record of shipping complete features independently. Additional exposure to Machine Learning and Deep Learning adds a data-driven edge.

EDUCATION

GGSIU – East Delhi Campus (USAR)

Expected Aug 2028

B.Tech – Artificial Intelligence & Data Science | Currently in 5th Semester

CGPA: 8.38

Related Coursework: Database Management Systems, Data Structures & Algorithms, Operating Systems, Object-Oriented Programming

Nutan Marathi Senior Secondary School

Mar 2024

Class XII – 89% | JEE Percentile – 97.14

SKILLS

Frontend: HTML, CSS, JavaScript, React 19, Next.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, WebSocket, Socket.io, WebRTC

Databases: MySQL, PostgreSQL, MongoDB, SQL, Prisma ORM

Tools & Version Control: Git, Postman, Cloudinary

Programming Languages: Java, C, C++, Python

AI / ML (Additional): Machine Learning, Deep Learning, TensorFlow, Keras, Scikit-learn, Time-Series Analysis

TECHNICAL PROJECTS

ChitChat | Real-Time Chat & Video Calling

- Built a full-stack real-time communication platform using React 19, Node.js, WebRTC, and Socket.io
- Implemented secure authentication using JWT & Bcrypt
- Integrated media storage and handling via Cloudinary

Draw App | Real-Time Collaborative Drawing

- Built a multi-user collaborative drawing platform using Next.js and HTML5 Canvas
- Implemented room-based collaboration using WebSockets and JWT authentication
- Added persistence using PostgreSQL with Prisma ORM

Stock Price Prediction using LSTM (S&P 500 Index)

- Developed an LSTM-based time-series forecasting model on historical S&P 500 data
- Performed data preprocessing, normalization, and sequence modeling
- Achieved ~2% prediction error (RMSE $\approx$ 77)

LEADERSHIP & EXTRACURRICULAR EXPERIENCE

IOSC – i3 Core Member (Web Development & Event Management)

College Technical Club

- Core member of the i3 (Web Development) Club, contributing to both technical development and event management
- Led the development of official websites for major college events, enabling smooth registration and information flow
- Organized Docker-Up, a hands-on Docker workshop with 150–200+ student participants
- Core organizing member of AZINHACK (Overnight Hackathon): managed logistics for 25+ teams (100+ participants) and coordinated with sponsors, mentors, and volunteers
